

2023 School Improvement Plan Summary

Memorial Oval Primary School

Goals	Targets	Challenge of Practice	Success Criteria
Goal 1: Increase student achievement in Mathematics, particularly in the number strand, Year R-6.	2022:	If we explicitly teach number sense concepts by delivering a curriculum based on a developmental sequence, through the high impact teaching strategies of differentiation and feedback, then we will increase student achievement in Mathematics.	Students will understand their next steps in learning in Mathematics when we provide quality, documented teacher feedback through common moderated assessment tasks. Students will articulate and apply number computation strategies relative to their year level and/or current level of understanding when we assess student understanding through Big Ideas in Number assessments
	2023:		
	2024:		
Goal 2: Increase student achievement in English, particularly in writing, Year R-6.	2022:	If we assess and explicitly teach text structure, sentence structure and paragraphing, and closely monitor student progress using formative assessment strategies (Brightpath), then we will see an increase in student achievement.	Students will understand their next steps in learning in writing when we provide quality, documented teacher feedback through common moderated assessment tasks. Students will apply learnt writing skills, including sentence structure, text structure and paragraphing when we complete Brightpath writing assessments.
